

Proloy Karmakar

UI/UX Designer

• My Self

Dedicated UI/UX Designer with 1.5 years of experience in creating engaging and user-centric digital experiences. Proficient in utilizing design and prototyping tools, such as Figma, Adobe XD, and more, to deliver high-quality UI/UX solutions. Strong problem-solving skills and a passion for delivering exceptional user experiences. My expertise encompasses a wide range of projects, both internal and external, including CRMs, control panels, complex user interfaces, and real products in production.

I had the privilege of being part of the product team for the QOMIX comic book application, where I honed my skills under the mentorship of Avishkar Pradhan from NimbleWork Inc. During my tenure, I spearheaded the design of the entire home screen, payment flow, eye-catching banners, and engaging quiz screens.

Currently, as an Associate Designer at Cloudcraftz Solutions, I lead the UX and Visual design efforts for our team. My approach includes rapid prototyping with a focus on solving high-complexity design challenges. Proficient in tools such as Figma, Adobe Photoshop, Adobe Illustrator, Miro, Notion, Jira, and Protopie, I ensure seamless collaboration and the delivery of exceptional user experiences.

My passion for crafting innovative designs and my proficiency in various design tools make me a valuable asset in delivering user-centric solutions.
